

How to access Tower 42

Arrival

On arrival, take the escalators to the reception area.

If you have a security pass for Tower 42, proceed through the barriers to the right of the reception desk.

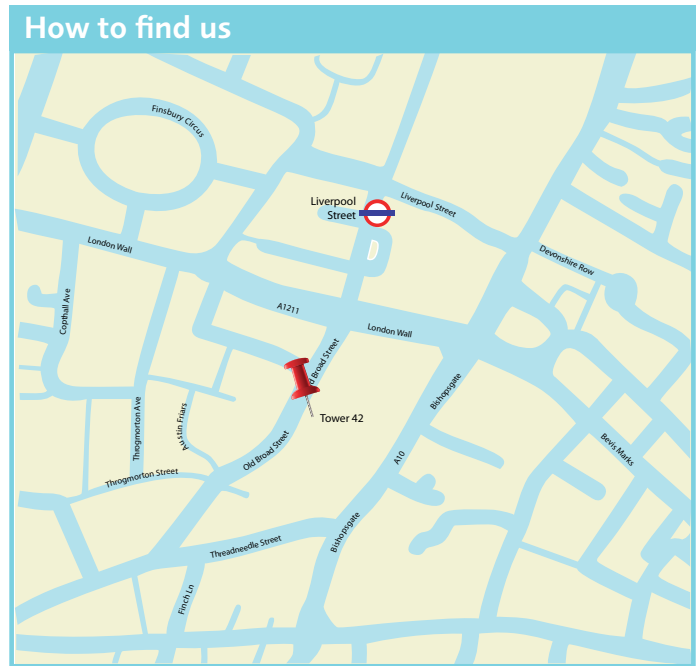

If you do not have your own security pass, please report to reception who will contact Paragon on Level 12 to advise of your arrival.

Once approved, Reception will give you a green security pass.

Proceed to the security check point on the right hand side of reception area where you will be asked to put your belongings through the conveyor belt scanner and walkthrough a body scanner.

Use your green security pass to access the lift area via the barrier and take the green express lift to Level 12.

On Level 12 proceed to the left and follow the lobby round until you see the Paragon sign above the entrance door.

Exit

Enter any of the lifts available and select "M" on the lift console to proceed to the mezzanine floor in order to exit the building.

Exit the lift and walk straight ahead and follow it round to the left to exit.

Press the exit button to operate the exit barrier.

If you were issued with a green security pass, please post this in the box provided prior to leaving through the barrier.
